

RCI Internship Program

SUMMARY

RCI was created to change the landscape of youth sports, one community at a time. Our team comes from a wide variety of backgrounds and is unified by the belief that baseball and softball positively impact lives far beyond the field. RCI is different than large, impersonal sports facilities management companies who operate under the 'seat em and feed em' mentality. Our holistic approach to management allows RCI to collaborate with and integrate into the community.

The purpose of the RCI Internship program is to create a collaborative environment between students and RCI staff to provide professional development opportunities for aspiring industry professionals and to assist with the function and success of the organization. This program will provide hands-on experiences for students to gain professional industry related experiences that will develop skillsets in leadership, organization, management, operations, marketing etc. Students will be able to apply the skillsets and knowledge gained to their career goals and aspirations.

We are seeking eager and passionate individuals to join our start up team. Sports are fun and life should be fun, our company culture endeavours to promote these values whilst exceeding expectations with our hard-working nature. The opportunities exist to grow with the company as we expand both locally and across the country. These positions present a chance to build a product from the ground up and own the successes.

POSITIONS AVAILABLE

- Marketing
- Digital Media
- Event Management
- Operations

These roles are designed to serve as professional development opportunities for students with the option to also receive credit hours towards their degree if needed. RCI is excited to help shape the future of students' success and is looking to create opportunities for students to be exposed to the youth and amateur sport and events industry. All interns will be required to take responsibility and leadership for a project that will enhance the organization. This project will be decided at the beginning of the program with the full-time staff program lead. Projects are only limited by the creativity and functionality of the idea. The intent of this project is to leave a legacy on the company either for the intern to continue into a part time or full-time role or for the next wave of employees to pick up where you left off.
